### **DETAILED ACTION**

1. This communication is in response to the application filed 25 August 2000. Claims 1-55 are pending.

#### ***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-30, and 55, drawn to providing a monetary incentive to a provider during an episode of care, classified in class 705, subclass 14.
  - II. Claims 31-48, drawn to operating upon claims for services rendered, classified in class 705, subclass 4.
  - III. Claims 49-54, drawn to determining a responsible provider, classified in class 705, subclass 9.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I, and II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, Invention I has separate utility such as distribution of incentives for cost reduction, and Invention II has separate utility such as a

method for processing insurance claims. Invention III has separate utility such as a assigning tasks to staff. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
